

Week 4 (Spring 2) – Animal Lifecycles

This week we plan to...

- Continue our new topic '**Growing and Changing**'.
- Read '**Growing frogs**' and discuss the lifecycle of a frog.
- Make a frog headband with the lifecycle on it.
- Read '**Once there was a caterpillar**' and discuss the lifecycle of a butterfly and order the pictures correctly.
- Learn about symmetry and create our own patterned butterflies.
- Learn all about the concept **small**. Explore small and not small containers in the water try. Which containers hold more?
- Recap 2D shapes. Can we identify them in the environment and talk about their properties? E.g., a circle has one curved side and no corners.
- Continue to identify numerals 1-10 in the nursery environment.
- Recap rhyme. How do we know if two words rhyme? Can we think of any other words that rhyme?
